

NOTICE OF METER EXCHANGE

**On May 7th to 9th, 2012
Starting at 08:00 am to 8:00 pm.**

Please see the attached Notice from BC Hydro & Corix Utilities.

They will be exchanging the existing meters with Smart Meters on the above mentioned dates.

Access to your Suite is not required.

There will be a brief power interruption which could last up to 60 seconds or so.

The one problem we can foresee is for people who work at home on their computers (not Laptops). Even a very brief power shutdown will cause all unsaved data and transactions to be lost. A solution to preventing data loss from a power interruption is to have what's called a UPS, which stands for Uninterruptible Power Supply, which costs \$100-\$150 from Future Shop. Some of you may already have one of these.

Other than that we can't foresee any problems, except of course clocks and timers will have to be reset after the power interruption. And as indicated in the BC Hydro letter, suite alarms will probably be triggered.

April 28th, 2012

938 NELSON ST. VANCOUVER

NOTICE OF METER EXCHANGE

On **May 7th – 9th**, at **8 – 8 am / pm**, 2012, **BC Hydro & Corix** – our authorized local contractor will be in the building exchanging existing meters with smart meters

- **Meter Installers will be clearly identified** with uniforms and photo Identification.
- **We do not require access to your unit.** You don't need to be home, we will work with your property manager / strata to gain access to the electrical meters.
- You will experience a **brief power interruption**, in most cases it will last 60 seconds. We recognize the inconvenience this may cause and will restore service safely, and as efficiently as possible.
- If you have a home security system, there is a chance that the alarm may be triggered, similar to when there is a power outage. If you have any concerns, please talk to your security provider.
