RE: GRASSED AREA

---

We are implementing the following rules and regulations for the grassed area on Burrard Street;

- No Dogs Permitted
- No playing, exercising, etc. on the grassed area

For health reasons and the overall look of our property, we find that we must have strict rules regarding this area. We must restrict dogs from using the grassed area. Some are leashed but we have noticed an increase in dogs who are running around without leashes. We have also been informed by our Landscaping Department that some of the Dog Owners are not picking up after their pets and therefore dog feces has had to be removed by our crew.

We do not want a situation where a Guest or Resident is either bitten or attacked by a dog.

We realize that some Residents have pets and therefore please note the location of the closet off leash dog park:

1030 Bute Street (@ Nelson Street)

Please see link below for details:
