

RDH PROGRESS REPORT: JUNE 21st, 2013

Work at One Wall is progressing as per plan. Very heavy rains and poor weather has interrupted our work flow and productivity this week; consequently the current weekly cycle will need to be adjusted by a day or two. We expect to be back on the one floor/5 working day cycle again next week. Quality, safety, and cooperation on site continue to remain very good.

Kevin Ganzert
Director of Construction Services;
RDH Building Engineering Ltd.

More owner feedback:

Pl pass on my very great appreciation for the professional and polite / friendly behavior of the whole teamI echo David and Sandy's sentiments.

Rick, great job! AndBravo RDH Team!!
